

Hudson Valley

Placenta Services

Thank you for choosing Hudson Valley Placenta Services to provide your placenta services. HVPS was the first to offer professional placenta services in the Hudson Valley region and continues to offer the same high quality services that have satisfied many new families since 2009. We would like to congratulate you again on your pregnancy and upcoming birth. We know this is a very exciting time for you. We will review the information you have submitted and e-mail you if there are any questions about your registration. If you do not get an email from us, that means there are no issues with your registration process and our next contact with you will be when we hear from you following your birth.

Please bring an insulated lunchbox or small cooler with ice packs to the hospital with you so that the placenta can be chilled on ice immediately. Following the birth, you can call Courtney at (845)283-7447 or Suzie at (917)749-0513. We will pick up the placenta as soon as possible unless you have opted to deliver it to us for the \$50 discount. Your capsules should be returned to you within three days of pickup. We will contact you to confirm whether you are still at the hospital or if you are at home when they're ready. The fee is due at the time of service and is payable by cash, check, credit/debit.

Please let us know if any of your information has changed or if you have any further questions after you have submitted this form. If you have any questions not related to your post-birth status or would like to grace us with referrals please use the following phone number (845)397-7995 as the above numbers are our personal cell phone numbers that we ask to be reserved for laboring and newly birthed families.

We look forward to meeting you soon,

Courtney Durfee & Suzie Dougherty D'Angelo
